Correct horse riding is a great way to get in shape. It enhances both physical fitness and flexibility.

Lessons begin with 'tacking up' (bridling, & saddling), parts of the horse, tack, care & grooming, and progress to leading, turn-outs, riding at the walk, trot and possibly canter.

Intermediate/advanced riders where students will learn more advanced riding techniques, including; walk, trot, canter, lateral movement on the horse, backing the horse, and possibly jumping ground poles and cross-rails. Intermediate students must be able to bridle, saddle and groom a horse on their own.
